# Safety Cable

LIGHTING SAFETY CABLE

- Safety Cable with Carabiner prevent hazard, especially when lights are hung overhead on a pipe or grid.

- Includes a carabiner to safety hook onto any fixture

- Designed to support temporary load.

These Safety cable with Carabiner has a 5/16" carabiner clip on one end and a loop on the other. Safety cable provides an extra layer of safety and prevents objects from falling in the event that a clamp should fail or is improperly tightened.

Laureola promises to make safety as No.1 priority.
